### CHECKS AND BALANCES: RESPONDING TO COVID-19

A toolkit to support leaders Provided to PHPS by SCC, August 2021 Version 2 - 20<sup>th</sup> August 2021

#### Staying COVID Secure – Our Commitment

- ✓ We recognise the risk posed by Coronavirus (COVID-19) to our staff, pupils and their families. Control measures to minimise the risk of infection and the transmission of the virus are provided in this Risk Assessment.
- ✓ We will put in place appropriate protective measures to ensure, as far as is reasonably practicable, the Health, Safety and Wellbeing of our staff and pupils.
- ✓ We will share this Risk Assessment and its findings with employees and consult on its contents.
- ✓ We will continue to comply with all relevant Health and Safety Legislation.
- ✓ We will have regard to statutory guidance in particular the guidance issued by the Department of Education regarding school reopening and implementing protective measures in education and childcare settings against COVID-19.
- ✓ We have regard to advice and guidance issued by Public Health England.

### COVID-19: Outbreak management plan

Please note: this document is an appendix to the school's main risk assessment, it should be undertaken in conjunction with the school guidance updated by the Department for Education on 17<sup>th</sup> August 2021 as follows: <u>Actions for schools during the coronavirus outbreak</u>.

It outlines how schools <u>would</u> operate if children, pupils, students or staff test positive for COVID-19, or if they were advised to reintroduce any measures described in the Contingency framework document to help break chains of transmission <u>Contingency framework: education and childcare settings - GOV.UK (www.gov.uk).</u>

ACTIONS SHOULD ONLY BE INSTIGATED IF ADVISED by DfE, Public Health or the Local Authority.

				1.1 General
NB In Salford, prior to reaching the thresholds outlined below, Salford Infection	on Control team will discuss the cases with sc	hool to expl	ore these cases and provide any ap	propriate advice
with a view to putting in place preventative measures to avoid a significant	outbreak such as the thresholds outlined be	low. In addit	ion, two or more cases within a 10	-day period in a
setting will be monitored by Salford Public Health team.				

The DfE threshold to use as an indication for when to seek public health advice: For most education and childcare settings, whichever of these thresholds is reached first: 5 children, pupils, students or staff, who are likely to have mixed closely, test positive for COVID-19 within a 10-day period; or 10% of children, pupils, students or staff who are likely to have mixed closely test positive for COVID-19 within a 10-day period; or

For special schools, residential settings, and settings that operate with 20 or fewer children, pupils, students and staff at any one time:

• 2 children, pupils, students and staff, who are likely to have mixed closely, test positive for COVID-19 within a 10-day period

All settings should seek public health advice if a pupil, student, child or staff member is admitted to hospital with COVID-19. They can do this by phoning the DfE helpline (0800 046 8687, option 1), or in line with other local arrangements. Hospitalisation could indicate increased severity of illness or a new variant of concern. Settings may be offered public health support in managing risk assessments and communicating with staff and parents.

The director of public health may give settings advice reflecting the local situation. In areas where rates are high, this may include advice that local circumstances mean that the thresholds for extra action can be higher. If they judge that additional action should be taken, they might advise the setting to take some or all of the other measures described in this document, for example extra testing.
